

a PRI Company - formerly Flextronics Beijing

Pritronics is an engineering-focused Electronic Manufacturing Services company located in the Beijing electronics district.

By providing process engineering, testing, sourcing and China marketing solutions, Pritronics is capable of moving products rapidly from prototype to market with the highest level of IP protection available.

ENGINEERING SERVICES

- Process Engineering
- Testing and Debug
- Reliability Testing
 - Mechanical
 - Environmental
 - EMI
- Tool, Jig and Fixture Design
- Component Sourcing

MANUFACTURING CAPABILITIES

- SMT
 - Final Pitch SMT 0.5 mm
 - PBGA, CSP
 - max 1350 Count
 - 1mm
 - Passive 0603
 - PCB min size 50 x 50mm
 - PCB max size 508 x 381mm
- Glue Printing
- Insertion and Wave Solder
- Conformal Coating
- Manual Assembly
- Cable Assembly
- Box Build
- Packaging

With the growth in number of design centers in the Beijing electronics zone, Pritronics is positioned to serve their manufacturing needs with the opportunity for design engineers to interact personally with Pritronics manufacturing engineers.

CERTIFICATIONS/QUALITY PROCESSES

- ISO 14001
- ISO 9001:2000 (transfer in process)
- UL
- FMEA (Failure Mode & Effects Analysis)
- SPC

PRODUCT INTRODUCTION

- Governmental Product Approvals
- China Sales Force
- Logistics Services
 - VMI
 - Consignment Warehouse
 - Drop Shipment

PRI (Pacific Resources International)

Pritronics' parent company, PRI, is a holding company focused on high-tech manufacturing investments in China. With a history of managing world-class factories in China, PRI offers an unparalleled network of vendors, manufacturers and sales teams. Through non-disclosure contracts with all employees and other carefully managed processes, PRI has maintained an outstanding IP protection track record.

PRI related businesses in China include

- FDA approved medical devices
- Wireless telecommunications components
- The market share leader in electroplating chemicals
